

CEO

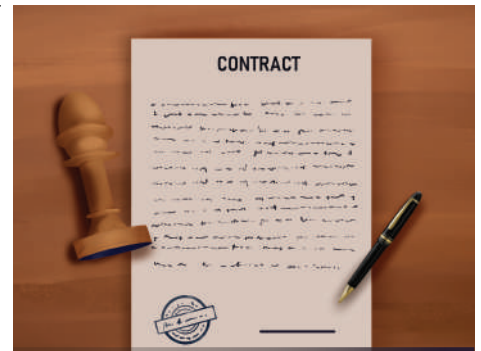

A CEO is aware and responsible of their business management. Once, I met one claiming that it is easy to find out if a CEO is really involved with business management.

Compactor

A compactor minimizes the volume of waste. But why does this farmer operates the compactor barefoot?

Contract

Contracts define responsibilities among collaborators, building mutual trust.

Advertising

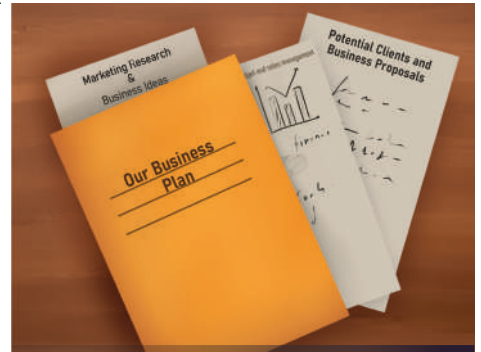

Organizing an effective advertising campaign will result in increasing our sales!

Business Gifts

Business gifts help to motivate our team. But some staff members seem to never be satisfied.

Business Plan

With a detailed business plan you can be aware of all the issues regarding a business's operation. After so many years in this sector, we consider ourselves to be highly experienced in it.

Cargo Vehicles

This cargo car can transport a huge capacity of goods. I wonder what kind of cargo was transported last week.

Cats

Cats in addition to keeping company to the farmers, they can chase various invaders. Lately, however, they seem to have disappeared.

Animal Feed

Feeding our animals is very important. That's why I always have enough supplies. But some other breeders don't seem to take proper care of their animals.

Freezer

Freezer - Freezers can reach very low temperatures to preserve food. But this seems to have changed recently.

Graphic Designer

Graphic design is essential for our brand and product visual identity resulting in more sales. Fortunately we hired an assistant to help our graphic designer.

Greenhouse

Using a greenhouse helps us provide stable environmental conditions to our fields. Fortunately, our greenhouse equipment helped us preserve our crops' quality and condition

Cybercrime Police

phishing of web accounts is very common so we must pay a lot attention where we share our data. The cybercrime police found a web address that seemed familiar.

Elevator Pitch

Our idea is incredible! We are looking for someone to pitch it. I believe that this person is already in our team.

Employee

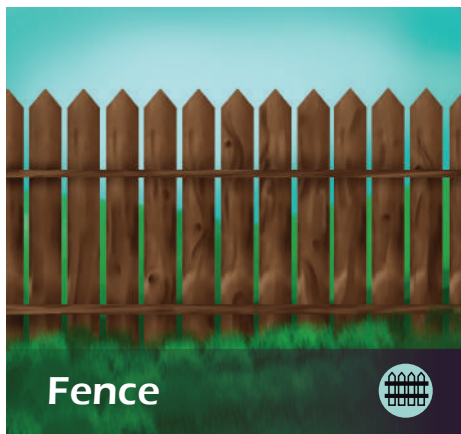

A new employee must be able to adapt very quickly. This one is very smart but I think he considers me as his enemy.

Farmer's Market License

A valid license is required in order to sell our products to a farmer's market.

Fence

A strong fence keeps wild animals away. But this fence is not too damaged. /But this fence does not seem to have suffered much damage.

Filters

Filters purify wastewater up to a certain extent. But this filter does not seem to function properly.

Guards

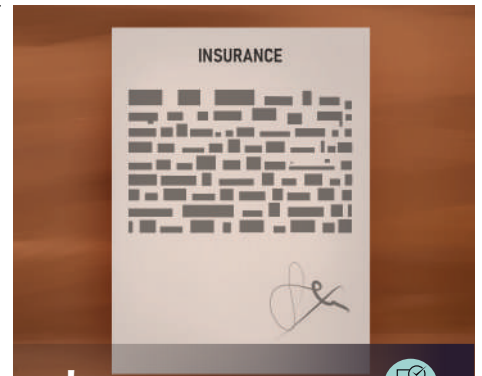

A security guard is responsible for protecting our fields in the case of an incident. Luckily, during his night shift he noticed some animal intruders, luckily not wild.

HR Development Plan

A well prepared HR development a plan is always beneficial. I think some people were born for this.

Insurance

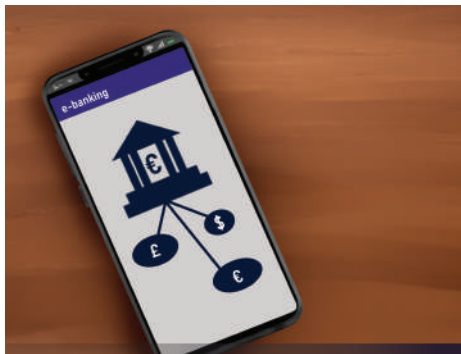

A business insurance coverage protects businesses from losses due to unforeseen events. I can't believe that it was our dog that hid the papers"

Mentor

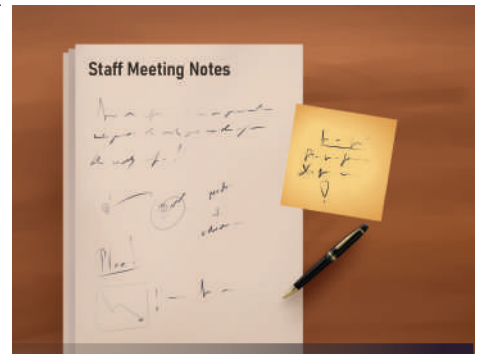

A mentor's guidance is always helpful. But some of his tips seem quite familiar.

Money

If you manage our money properly, we are able to invest in several opportunities. Our new employee, though, behaves like he owns our business capital

Notes

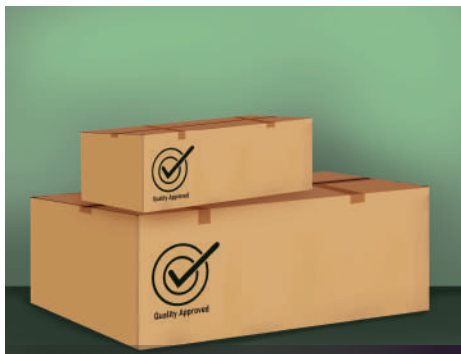

It is important for every team member to take notes in our group meetings. While I was leaving the meeting room, I noticed in the garbage bin a paper writing that soon our staff will learn suprisingly good news.

Pumps

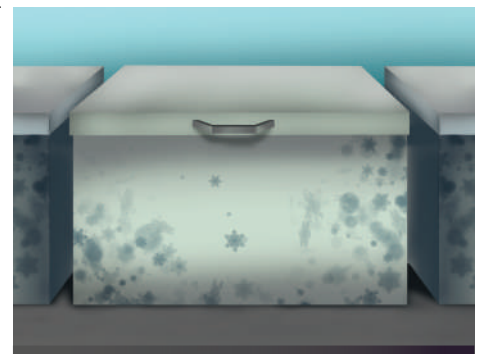

A strong, functioning pump system is crucial for our facilities. While checking it, I noticed some bizarre marks on a pipe.

Quality Control

Creating certain benchmarks for our quality control ensures that we provide to our customers high quality products. If we fail to keep these standards, our brands value and reputation will be destroyed.

Refrigerator

Our refrigerators helps us preserve our crops fresh for a longer period of time. Sometimes though, other farmers ask us to use our equipment as well.

Insect Repellents

Insect repellents protect our cultivations. But lately, they are in shortage from local stores

Research and Development Team

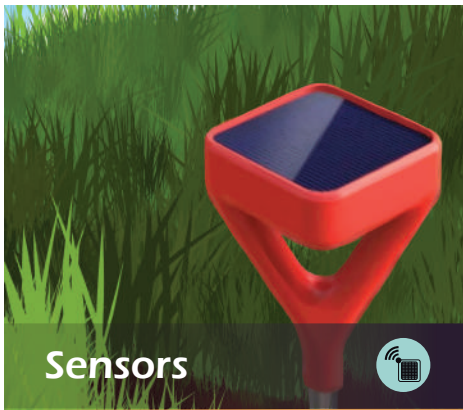

A good research and development team could contribute to our business rank in the market. New members usually bring very good ideas.

Schedule

It is important each team member follows the schedule drafted. I noticed that next week some dates are blocked. There must be a reason for it.

Sensors

The sensors installed monitor several important parameters for our crops, for example, environment's temperature, moisture, and others. But during nighttime we spot strange measurements.

Shoes

My safety shoes protect me from injuries. Aaah, I cannot find one of my shoes!

Social Media Campaign

By running a social media awareness campaign you can raise awareness about the quality of a product. But while our campaign seems to be going well, we keep receiving negative reviews

Software

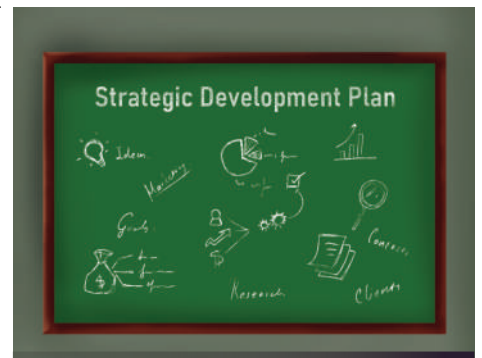

In our farm, we use an app to automate most of its processes. But we found out recently that it has many bugs.

Stands- Change of equipment

I knew that if I displace the equipment and place it on stands, it would help a lot. But I also discovered something else with that, which I didn't expect.

Strategic Development Plan

This plan presents the phases of the company as it develops. I was told that someone had presented something similar but even though he had notes, he was not as well prepared as I was.

Suppliers

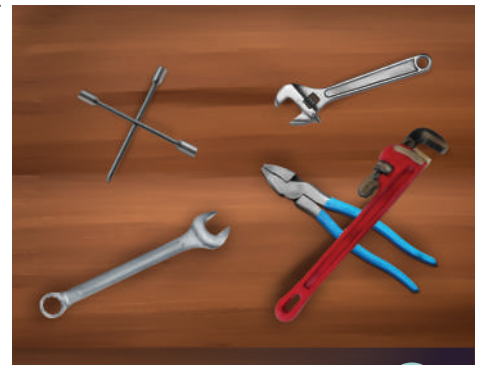

Suppliers - Suppliers are amongst our most important collaborators. But are they reliable at all?

Tablet

I can monitor the farm using my tablet. But what are these glitches here?

Tools

A mechanic uses certain tools to repair our equipment. They could not have been scattered accidentally.

Tractor

This tractor is very powerful. Noticed several old dates engraved on its surface.

Warehouse

It is important to have a large and organized warehouse. When I entered, I think I saw something moving in there.

Workers

Field workers should always be satisfied from the work conditions. One of them seems very unhappy lately and keeps talking about his son.
